

What size tracks do you have?

(Might be labeled right on the inside of track)

1. Measure the width of the track in millimeters.
2. Measure the Pitch in millimeters.
3. Count the total number of links in the track.

Width: _____ mm

Pitch: _____ mm

of Links: _____

width X pitch X links

Example: The rubber tracks for a Bobcat 316 are sized 180X72X38.
This means the track is 180mm (7") Wide, with 72mm (2.8")
Pitch length and a total of 38 Links.
